

Larry was such a help with our new pup Bailey. Being first time dog owners, we really didn't know how to teach our dog to behave. Larry came in with a mild manner and focused energy and transformed Bailey into an obedient puppy. His lessons were fun and our dog really responded to the training.

One of Bailey's trouble spots was loose leash walking, he was a serious puller. Larry gave us a training tool and the next day out on my own walk I had to call Larry to let him know that it worked so well a 5 year old could have walked our dog, he was so well behaved. We had bought the training books, but it's a different thing when someone comes to your house and personalizes lessons for your dog. We would definitely recommend Larry.
